

SANTA CLARA COUNTY
 LOCAL FIRE SERVICE AND RESCUE MUTUAL AID PLAN
 APPENDIX 2 - LOCAL GOVERNMENT STRIKE TEAMS
 Revised Date: April 2021 Next Revision Date: March 2022

A. Purpose of the Plan

Local jurisdictions within Santa Clara County have identified four (4) Engine Strike Teams as available resources for:

1. Request by neighboring counties within the CAL OES region for major incidents on a short-term basis.
2. Request by CAL OES for major incidents under the California Fire Service and Rescue Mutual Aid Plan.

B. Policies

1. Type-1 engines typically are used for structural protection in a wildland fire environment. They are not designed for operations on narrow, unsafe roads, dozer, or brush trails. Common sense must be used in engine assignments.
2. Type-3 engines have a number of features that enhance their capability to operate on narrow, steep, or unimproved roads to allow the efficient application of water, or other agents. It is the expectation that when a local government Type 3 strike team arrives at an incident, it can perform all missions that other Type 3 strike teams can provide.
3. Regardless of typing, all strike teams should be prepared to perform other assignments as needed at the request of the Incident Commander. These assignments may include such things as prepping structures, hand line construction, backfiring, progressive hose lays, "Bump and run," and structure triage.
4. Each resource in a strike team shall carry credit cards and/or cash for routine travel expenses to and from out of county incidents. For crew continuity and time efficiency, fuel payment choices should not be limited.
5. Relief for strike team personnel may be based on a fourteen (14) day duty assignment.

C. Response Modes

MODE	TIME FRAME	LOCATION OF INCIDENT
<i>INITIAL ATTACK (Code-3 response for protection of life and property)</i>	Instantly or as quickly as possible.	Closest available mutual aid resources within operational area or adjacent operational area. Resources will normally

		rendezvous at the incident
<i>IMMEDIATE NEED (Varies - Code-3/Code-2)</i>	Responding within 30 minutes.	Mutual aid resources respond to incident within 30 minutes from time of dispatch within operational area. May or may not rendezvous prior to departure.
<i>PLANNED NEED (Generally Code-2)</i>	Planned incident arrival time determines departure time.	Mutual aid resources respond within the operational area, adjacent operational area, region or state as needed for the next operational period or as determined by requesting agency. Resources will normally rendezvous before departure and travel together.

D. Strike Team Leader Reporting

1. Strike team leaders should obtain the duty chief or administration telephone number from each engine when responding outside bay area counties.
2. Strike Team Leaders are expected to obtain personnel information (first name, last name, rank, apparatus assigned to) from everybody on their strike team and relay that information to Santa Clara County Communications (via landline - 408.299.2503). The best time to accomplish this is at the rendezvous point, or immediately after departing the rendezvous point, en-route to the incident.
3. Once each twenty-four (24) hour period; any time the assigned incident location changes; and on release for travel; strike team leaders shall contact the XSC Operational Area Fire Coordinator. The most efficient way to do this is to call County Communications at 408.299.2503 and ask for the phone number of the current Duty Chief. Each engine company should contact their home agency per their individual department policies and procedures.
4. Strike team leaders shall maintain applicable written records for the incident. Records shall include, but are not limited to: F-42 (Emergency Activity Record), ICS form 201(Incident Briefing), ICS form 214 (Unit Log), etc.

E. Strike Team Rules of Conduct

1. It is the strike team leader's responsibility to maintain control of the resources assigned (applies to responding and relief personnel):

- a. Brief all personnel ASAP.
 - b. Inventory and inspect personnel and equipment during assembly. Any unsafe equipment or personnel without proper uniform and safety clothing may be rejected.
 - c. Establish radio communications within the strike team.
 - d. Establish order of travel within the strike team.
 - e. Appoint an Assistant Strike Team Leader.
2. Assure that all personal needs are met for personnel assigned:
 - a. Medical
 - b. Food
 - c. Sleep
 3. Attend all required shift briefings and debriefings.
 4. The strike team leader is the only person authorized to sign out supplies.
 5. Crews often sleep during odd times. Even though strike team personnel are not tired, other people may be; be considerate.
 6. Even in base camp or at a motel, the strike team is subject to dispatch/reactivation. It is the strike team leader's responsibility to ensure that team members are in a state of readiness.
 7. The strike team leader is responsible for the individual conduct of each team member. It is the responsibility of the strike team leader to establish and maintain discipline within the strike team. Under no circumstances will drinking of alcohol or use of drugs be condoned.
 8. The strike team leader shall keep the strike team together until each engine is released back to the local agency.
 9. Ensure that travel routes are known, and the most direct route is taken.
 10. Relief crews shall report and travel in uniform.

4. Trainee Selection Priority

The Santa Clara County Fire Chiefs Association has identified an ongoing need to maintain a sufficient quantity of Chief Officers within the Operational Area who are qualified in the position of Strike Team Leader.

To meet this need, preference for trainee assignments shall be given to those personnel who have promoted to the position of Battalion Chief but have not yet qualified as a Strike Team Leader.

Strike Team Leader Trainees shall be chosen in the following order.

- a. Battalion Chief not yet qualified as a Strike Team Leader from the agency fulfilling the position of Strike Team Leader.
- b. Battalion Chief not yet qualified as a Strike Team Leader from another agency in Operational Area.
- c. A Captain not yet qualified as a Strike Team Leader from the agency fulfilling the position of Strike Team.
- d. A Captain not yet qualified as a Strike Team Leader from any other agency in Operational Area.

5. Trainee Selection Procedure

- a. The agency having primary responsibility to provide a Strike Team Leader shall also be responsible for securing an appropriate Strike Team Leader Trainee.
- b. In the event an agency has primary responsibility as Strike Team leader and does not have a Battalion Chief in need of qualification as a Strike Team Leader, the opportunity for the trainee position shall be offered to the designated "alternate" department then other fire agencies in the Operational Area.
- c. This may be done through a blanket request via the Red Net, or through direct communication with another agency.
- d. The agency having primary responsibility to provide a Strike Team Leader shall also be responsible for updating the Strike Team Leader and Trainee Assignment page on the Operational Area Website (xsc.sccfd.org) by 0900hrs daily.
